### Keep in Trim!

Good Elimination Is Essential to Good

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Ask your neighbor!

### PILLS 60c Stimulant Diuretic to the Kidneys

QUIHI NOTES.

Bethlehem Lutheran Church was tastefully decorated last Sunday in honor of the catechetical Class which was confirmed. The beautiful and impressive rite was administered to six boys. The service was greatly 4t. beautified by several fine selections

by the church choir and a similar selection by the Quihi Male Quartet. The interesting service was attended by an audience which taxed the church to capacity.

Sunday school and Bible class Sunday morning at Bethlehem Lutheran Church at 9 A. M. Following the regular divine service, which begins at 10 o'clock, the Holy Communion will be administered to the newly confirmed class of catechumens and all others who desire to receive this sacrament. All communicants should announce themselves to the pastor. All are cordially welcome at the services in this church.

To night, a splendid lawn social will be held at the old Quihi Lutheran church. All are cordially invited to come and enjoy the interesting program and other good things offered. The program has in its make-up some fine musical and literary numbers. There will also hungry and thirsty, and a number Mr. and Mrs. L. W. Burell and of donated prize packages from generous givers for the happy ones who get them. The social will begin about 7:30 P. M. Here an opportunity is offered for friends and neighbors and their families to meet and enjoy a good program and spend a few hours socially and do some

### ZINC IS FOUND IN ICHTHYOL MINE.

Forty pounds of zinc to the ton (about \$20 worth) was shown to be present in samples of ore sent by Frank P. Carle, president of the Ichthyol Mining Corporation to Golden. Colo., where the samples were assayed. The report of the assayor has been received and on the basis of that report, Mr. Carle is arranging to send several tons of the ore to El Paso, where it will be smelted and the amount of zinc and other minerals determined.

In assaying the samples to ascertain whether or not there was any platinum present the assayor found some gold and this will be further tested to ascertain the amount. The analysis had not been completed when the report was received from the assayor and another report is nected in a few days.

The shaft on Mr. Carle's farm, west of San Antonio, 18 miles, has furnished a vast amount of interestng information. Quite a lot of oil has been distilled from the shale and it shows ichthyol, a very valuable production and the San Antonio Ichthyol Mining Corporation is being formed by Mr. Carla for the purpose of mining the shale for the ichthyol, but the possibility that the mine will also yield considerable shale that will yield zinc and other metals in addition to that yielding ichthyol makes it a much more interesting proposition .- Tuesday's Ex-

You write letters occasionally. Why not use printed stationery? We will furnish you a box of 200 note sheets and 100 envelopes, all neatly printed with your name and address. for only \$1.00.
